İBRAHİM TÜRKEL

JUNIOR AI / LLM & BACKEND DEVELOPER

Ankara, Türkiye | ibrahimturkel18@gmail.com | linkedin.com/in/ibrahim-turkel | github.com/Trklibrahim

PROFESSIONAL SUMMARY

Computer Engineering student in an English-taught program focused on applied NLP, LLM-enabled applications, and backend development. Team-project experience across historical-document analysis, personalized news recommendations, and adaptive assessment. Contributes to product concepts, workflow design, and AI/backend implementation, with a practical interest in Python, REST APIs, relational databases, and local LLM workflows.

TECHNICAL SKILLS

Programming: Python, PHP, C++, SQL
AI / NLP / LLM: LLM integration, NLP workflows, prompt engineering, Hugging Face Transformers, semantic similarity, recommendation logic
Backend & Data: REST API design, MVC, MySQL, PostgreSQL, relational data modeling, indexing and query-optimization fundamentals
Tools & Practices: Ollama, LM Studio, Git/GitHub, Linux, OOP, modular design, SOLID and Clean Code fundamentals

SELECTED PROJECTS

Ottoman Turkish Document Analysis & Translation Platform | 2024–2025 | Five-person team

- Collaborated on workflows for historical-document analysis, Ottoman Turkish transcription, and rendering into modern Turkish.
- Contributed to NLP/LLM workflow and prompt design, historical-context and terminology-check concepts, and REST API/web-interface integration.

Personalized AI News Recommendation Platform | 2025–Present | Five-person team

- Contributed to the product concept and AI/backend workflow for a personalized news digest based on reading history and user interests.
- Helped shape ranking logic combining category preferences and semantic similarity, with NLP-based content categorization and article/profile matching.

AI-Assisted Adaptive Assessment Platform | 2025 | Backend and algorithm contributor

- Contributed to a PHP/MySQL assessment application with REST endpoints and logic intended to adapt question difficulty to user performance.
- Worked on assessment data flow and SQL/query improvements.

Personal AI Assistant - Concept & Workflow Design | 2024–Present | Concept development

- Developed a concept and workflow for a personal assistant intended to use local open-source LLMs through tools such as Ollama or LM Studio for selected tasks.

EDUCATION

Ankara Bilim University | Ankara, Türkiye
B.Sc. in Computer Engineering (English-taught program) | Expected 2027
Relevant coursework: Data Structures & Algorithms, Database Systems, Object-Oriented Programming, Operating Systems, Software Engineering

CERTIFICATIONS & COURSES

Machine Learning Using SAS Viya - SAS (2025) | SAS Programming 1: Essentials & Data Literacy Essentials - SAS (2025) | Python with Big Data - Turkcell Akademi (2026) | C++ Data Structures & Algorithms - Udemy (2025)

LANGUAGES

Turkish (Native) | English (B2)
